**Annotation:**

The objective of the course of SpecialisedEnglish – Part 3is to extend the knowledge of the students in specialised maritime English language and to improve theirlanguage skills, thus contributing to their successful professional communication. The lexical and syntactic units and constructions introduced in the previous semesters are revised, consolidated and diversified.The specialised vocabulary is enriched, the selection and the sequence of the topics in the curriculum being in accordance with the curriculum of the speciality. The focus is on developing reading skills, translation of specialised literature and discussions on relevant problems in the field of ship machines and mechanisms.

**Main issues of the syllabus content:**

- Major Fixed and Running Parts of Marine Diesel Engines
- Principle of Operation of Marine Diesel Engines
- Reading Comprehension, Summarising and Discussing
- Translation of Authentic Texts in the Field of Marine Engineering
- Developing Writing and Speaking Skills through Discussions and Presentations on Relevant Topics

**Content presentation:**

Students are taught through seminars and tutorials.
