

Discipline	ENGLISH code: 5 1st semester – winter		
Specialty	Civil Protection in Emergency Situations and Disasters		
ECTS credits: 5	Form of assessment: pass/fail assessment		
Lecturer	Senior Lecturer Milena Zlateva Room 226A NUK Phone: +359 52 383 450 E-mail: milenazlateva@tu-varna.bg		
Department	Section of Language Training		
Faculty	Department of Language Training, Lifelong Learning and Sports		
Learning objectives:			
<p>The subject of “English Language” for the specialty of “Automotive Engineering” is designed for undergraduate students who have studied English as a foreign language during their secondary education and have mastered the necessary knowledge and skills at level A1 of the Common European Framework of Reference for Languages (CEFR). The course is structured within a total study load of 45 academic hours and promotes the development of the students’ overall linguistic performance of the basic English grammar rules and sentence structures. Additionally, throughout their period of training, the students acquire the essential fundamentals of the relevant specialized vocabulary and get acquainted with the principal peculiarities of the scientific style and industry-specific technical literature.</p>			
CONTENTS:			
	Training Area	Hours lectures	Hours seminar exercises
	The content is delivered through seminars, providing the students with ample opportunity to develop their linguistic competence; improve their comprehension skills and become more confident in their choice of language features and text/sentence structures. However, core subject areas for a specialised course in English will include: general classification of automobiles; basic structure of an average automobile; transmission system; brake system; steering system and electrical system .	0	45
