Learning objectives:		
<p>The consolidation of students' competences in General English commenced in the first and second parts continues in this semester as well. Students' attention is drawn to grammatical units widely used in the language of science and technology. Learners are also introduced to basic maritime terminology. Developed are the four communicative skills – reading comprehension, listening and speaking. Each unit is followed by a mini-project for broadening their knowledge which terminates with a mini-presentation.</p>
