Learning objectives: ...To study all aspects of social life, from small groups to large-scale institutions. <p style="text-align: center;">/ANNOTATION/</p> Sociology is a discipline that expands student knowledges of seeing and understanding the social world in which they live. Through its particular analytical social theories and perspectives, sociology expands student's awareness and analysis of the human social relationships, cultures, and institutions that profoundly shape both our lives. Students trained in sociology also know how to help others understand the way the social world works and how it might be changed for the better. Sociology is a discipline that study all aspects of social life, from small groups to large-scale institutions. The discipline emphasizes the impact of race, ethnicity, gender, age, and social class on social relations. Students in this major learn about socialization across the life cycle, crime and deviance, social conflict, social inequality, and globalization.
