Department	Section of Language Training and Continuous Qualification		
Faculty	Department of Language Training, Lifelong Learning and Sports		
Learning objectives:			
/ANNOTATION/			
<p>The aim of the course of Specialised English - Part 2 is to extend the students' knowledge in maritime English, providing the terminology and developing the language skills and the communicative skills required for the effective use of English in the professional environment. The lexical and syntactic units and constructions acquired in the previous semesters are consolidated and the thematically-related vocabulary and structures are enriched. The emphasis is on reading and translation of specialised literature.</p>			
CONTENTS:			
<p>The course is designed to meet the specific needs of the students and is determined by both their language knowledge and end objectives. However, core subject areas for a Marine Engineering English Language- Part II course will include: fluency enhancement, improved writing and speaking skills, expanded grammar knowledge, sector-specific vocabulary, i.e. technical English terminology as well as vocabulary in the field of types of marine diesel engines, running and fixed parts of diesel engines.</p>
