

RADAR WATCH AND PLOTTING (45)

Annotation:

The subject Radar Watch and Plotting is carried out during laboratory exercises in three stages:

First stage – plotter solving of problems for obtaining TME, CPA, TCPA and passing clear of one, two or three targets;

Second stage – use of the radar simulator for obtaining TME, CPA, TCPA and passing clear of one, two or more targets, manoeuvre control and correction;

Third stage – use of ARPA to ensure passing clear of one, two or more targets and navigation in narrow waters.

Basic sections:

- Plotter solving of problems for passing at a safe distance;
- Use of the radar simulator for passing clear;
- Use of ARPA for passing clear.
