Learning objectives:			
<p>During this semester students have the opportunity to widen and improve their language competence as well as combine it with the development of a range of subject specific skills. At this stage the focus of study is on the specialized vocabulary concerning the process of shipbuilding, cargo- handling equipment and port facilities. At this stage the development of the four communicative skills continues. Created are students' oral presentation skills. Students are trained to work with specialized dictionaries. By the end of the English course students are expected to recognize and successfully apply the terminology used in their professional discourse.</p>			
CONTENTS:			
Training Area	Hours lectures	Hours seminar exercises
