Department	Section of Language Training and Continuous Qualification		
Faculty	Department of Language Training, Lifelong Learning and Sports		
Learning objectives:			
/ANNOTATION/			
<p>The objective of the course of Specialised English – Part 3 is to extend the knowledge of the students in specialised maritime English language and to improve their language skills, thus contributing to their successful professional communication. The lexical and syntactic units and constructions introduced in the previous semesters are revised, consolidated and diversified. The specialised vocabulary is enriched, the selection and the sequence of the topics in the curriculum being in accordance with the curriculum of the specialty. The focus is on developing reading skills, understanding and translation of specialised literature and discussions on relevant problems in the field of ship machines and mechanisms.</p>			
CONTENTS:			
<p>The course is designed to meet the specific needs of the students and is determined by both their language knowledge and end objectives. However, core subject areas for a Marine Engineering English Language- Part III course will include: fluency enhancement, improved writing and speaking skills, in-depth grammar knowledge, sector-specific vocabulary, i.e. technical English terminology as well as vocabulary in the field of the diesel engine, four-stroke and two-stroke diesel engines and gas distribution in the diesel engine.</p>
